

**EVERY
BOTTLE
BACK**

OUR RECYCLABLE BOTTLES ARE MADE TO BE REMADE. AND WE WANT EVERY BOTTLE BACK IN SAN ANTONIO, TEXAS.

The Coca-Cola Company, Keurig Dr Pepper and PepsiCo are working together to reduce our industry's plastic footprint through our Every Bottle Back initiative. We're using less new plastic and investing in key areas across the country to get our bottles and cans back so we can remake them into new ones.

OUR INVESTMENT IN SAN ANTONIO, TEXAS

Through Every Bottle Back, we are investing in San Antonio, Texas to modernize collection, sortation, and processing of recyclable materials in the region.

INVESTING \$3 MILLION TO BUILD THE CITY'S MRF

Our investment will help build a brand new, state-of-the-art materials recovery facility ("MRF") from the ground up with the newest recycling technology and infrastructure to sort, clean and bale recyclable materials, such as the beverage industry's plastic and aluminum containers.

IMPROVING RECYCLING INFRASTRUCTURE

The new facility will allow materials from more than 1.45 million residents, other communities, multifamily buildings and commercial customers to be sorted and have a better chance of being remade into new products.

INCREASING RECYCLABLE MATERIALS COLLECTED IN THE REGION

The MRF is expected to yield nearly one million tons of recyclables over the next decade. This includes nearly 60,000 tons of PET plastic and more than 20,000 tons of aluminum, both of which are used to make recyclable cans and bottles

SUPPORTING LOCAL JOBS

This project will directly support more than 40 full-time jobs.
